

**Township of North Dumfries
Council Agenda
Special Council (Budget) Meeting**

Date: Monday, February 2, 2026
Time: 6:00 p.m.
Location: 2958 Greenfield Road, Ayr (Dumfries Room)
Hybrid Meeting with YouTube Livestream

Members of the public may watch and/or participate in this open meeting using any of the following methods:

1. Attend in person in the Dumfries Room at the North Dumfries Community Complex located at 2958 Greenfield Road.
2. Attend electronically to observe the meeting or to speak to an item on the Agenda by registering with the Clerks Division at clerk@northdumfries.ca before 6:00 p.m. on Sunday February 1, 2026. A zoom link is provided to those who register before the deadline.
3. Watch the livestream by accessing the meeting on the Township's YouTube page. The livestream is for viewing only and not for direct participation.
4. Submit written comments to clerk@northdumfries.ca in advance of the meeting. The correspondence will be provided to the Mayor and Council prior to the meeting.

Chair: Mayor Sue Foxton

- 1. CALL TO ORDER**
- 2. APPROVAL OF THE AGENDA**
- 3. INDIGENOUS TERRITORY ACKNOWLEDGEMENT**
- 4. MOMENT OF REFLECTION**
- 5. DISCLOSURE OF PECUNIARY INTEREST & GENERAL NATURE THEREOF**
- 6. ITEMS FOR CONSIDERATION**

6.1 Report No. FIN-03-2026: Draft 10 Year Capital Forecast (2026 – 2035) and Reserve Continuity Analysis.

- i) Presentation by Christina Brox, Treasurer/Director of Corporate Services regarding the Draft 10 Year Capital Forecast (2026 – 2035).
- ii) Registered speaker(s)
- iii) Public correspondence

6.2 Presentation and Overview from Andrew McNeely, Chief Administrative Officer, regarding Department Business Plans (2026 – 2028) as contained within the Draft 2026 Budget Book.

**Township of North Dumfries
Council Agenda
Special Council (Budget) Meeting**

Date: Monday, February 2, 2026
Time: 6:00 p.m.
Location: 2958 Greenfield Road, Ayr (Dumfries Room)

6.3 Report No. FIN-04-2026: 2026 Budget (Capital and Operating).

- i) Overview by Christina Brox, Treasurer/Director of Corporate Services – 2026 Capital and Operating Budget.
- ii) Registered speaker(s)
- iii) Public correspondence

7. BY-LAWS

7.1 By-law No. 3617-26 – Being a By-law to Approve the Township of North Dumfries 2026 Budget.

7.2 By-law No. 3618-26 – Being a By-law to Confirm the Proceedings of the Special Council Meeting held on February 2, 2026.

8. ADJOURNMENT

**Special Council (Budget) Meeting
February 2, 2026**

Draft 10 Year Capital Forecast [2026 – 2035] and Reserve Continuity Analysis

The Chief Administrative Officer and Treasurer/Director of Corporate Services recommend:

- 1) THAT FIN Report No. 03-2026 be received;**
- 2) AND THAT Council adopt in-principle the Ten Year Capital Forecast [2026 – 2035] which is be utilized to inform the Township of North Dumfries' future financial Capital Budgets and ongoing planning / financial analysis**

1. Purpose

The purpose of this Report is to provide Council with background information on the *draft* 10 Year Capital Forecast [2026 – 2035] and the associated Reserve Continuity Analysis.

The *draft* 2026 Budget document is posted on the Township's website [www.northdumfries.ca] for review / downloading – follow the link to the 2026 Budget.

The *draft* Ten Year Forecast (2026 – 2035) and the Reserve Continuity Analysis is included as Attachment No. 1 to this Report.

2. Background

As part of the annual Budget cycle, Council reviews the Ten-year Capital Forecast. The last review occurred on August 13th, 2025 in a Special Council Meeting.

The results of the review and direction from the August 2025 meeting regarding the 2026 - 2035 projects were updated and have been brought forward by Staff into the *draft* 2026 Budget. In addition, where appropriate, adjustments have been made to some projected expenditures to align with new cost information and/or changes to service standards.

It is important to note that the 10 Year Capital Forecast is a living document and is subject to change based on new and improved information being received by Staff.

**Special Council (Budget) Meeting
FIN Report No. 03-2026
February 2, 2026**

The 10 Year Forecast is meant to reflect the direction of the Township's needs in terms of the delivery of the long term Capital projects to be undertaken during the identified time period [2026 – 2035]. The listing of Capital Projects is based upon key aspects of the Township's Asset Management Plan for the renewal of major assets (i.e.: rolling stock, buildings, parks); the rehabilitation / renewal of the linear infrastructure network (i.e.: roads, bridges, sidewalks, etc.); implications arising from residential and non-residential growth; community expectations; and, the evolving circumstances and structural changes occurring in the local and the global economy.

The review session of the Long-Term Capital Financial Plans at the February 2, 2026 Special Council (Budget) Meeting has been designed to align with the following goals:

1. Provide an updated outline of the 10-year forecast to assist Staff in the development of the 2026 – 2035 projects listing and the alignment of the capital delivery program with Council expectations;
2. To facilitate a roundtable discussion amongst Council on the long-term capital projects forecast for 2026 and beyond as several major items will affect the 2027 Budget and future Staff workplans. It is important for the Township to prepare for those items prior to preparing for the 2027 Budget and to consider the implications during the 2026 work term; and,
3. Inform the need to allocate Reserve Transfers during the annual Budget review process to ensure that funding is available during the 10 year Capital forecast period to deliver the range of projects identified.

The longer-term objectives behind the preparation of a Ten-Year Capital Forecast (2026 – 2035) have a multitude of reasons, namely:

- Identifying and prioritizing projects;
- Assists in setting future annual Budgets. This will facilitate pre-planning of financing that is required to fund the Capital Forecast by either setting aside Reserves, planning for Debt financing, and/or shifting or deferring projects to avoid rate spikes or funding shortfall;
- If necessary, sequencing integrated projects to ensure efficiencies;
- Establishing an understanding of cost exposures and the need / basis to fund Reserves and to set alternate funding sources such as fees & charges to prepare for the future expenditure;

- Where applicable, identify opportunities for Grants from Senior Government levels;
- Assist in the development of a financing policy which will guide the Municipality on items such as Reserves, Debt and multi year budgeting for both Capital and Operational costs;
- Utilize as an aid to inform the Public, investors and Staff on future undertakings and the timing of projects;
- Project management and the resources necessary to deliver projects;
- Ensuring that buildings, rolling stock and infrastructure are replaced and rehabilitated in a timely fashion to maintain them in a “*state of good repair*” consistent with the Township’s Asset Management Policy;
- The Asset Management Plan. O. Reg 588/17 identifies that the Township must have an updated plan in place for core assets by July 1, 2022 and soft services (ie: rolling stock, parks, facilities) by July 1, 2024. The completion of these two elements of the Township’s assets requires an inventory of the core assets and the corresponding current levels of services and the associated costs to maintain those service levels;
- Inform iterative updates to the Township’s Development Charges Background Report and associated Bylaw to account for growth related projects within the ten year horizon; and,
- Assist in the development of Department Business Plans. These Plans are developed annually and assess the next three-year period forward at a Department level. The current plans are for 2026 – 2028 and are included in the *draft* 2026 Budget Book. These Plans provide more depth to assist Council and Staff in understanding the nature of future Capital projects, delivery timetables, identifying and clarifying implications on future Operating Budgets, Staff forecasts, training requirements, and, alignment with evolving Provincial legislation and regulations.

3. Options and Analysis

A. Updates from Previous Ten-Year Capital Forecasts

The Ten-year Capital Forecast worksheets previously circulated to Council members continues to evolve. Key background documents that have been completed by the Municipality that assist with informing the 10 Year Capital Forecast include:

- The State of the Infrastructure Report – Roads. The initial assessment was completed by 4 Roads Management Services Inc in January 2017. The technical analysis was updated by Dillon Consulting, State of the Infrastructure – Roads, dated July 2022, and is now utilized to inform the strategy to upgrade and rehabilitate the Township’s road network. In 2025 Thurber Engineering undertook an update to the State of the Infrastructure Report - Roads which will be reviewed with Council in Quarter 1 of 2026;
- Meda Engineering & Technical Services, 2024 OSIM Inspection for Municipal Bridges & Culverts, and peer reviewed by SAFFA Engineering, includes updates to the Bridge and Major Culvert inventory in the Township. The report outlines improvements that are needed on all Township owned four (4) bridges and fourteen (14) major culverts. The amounts shown in the Ten-year Capital Forecast worksheets illustrate the recommended engineering assessments and immediate and long-term capital repairs and replacements. This report is updated biannually, and the OSIM Report was undertaken in 2024 and is scheduled to be updated in 2026;
- At the December 9th, 2024 Council Meeting a Report from Staff was reviewed related to the structural assessment conclusions / recommendations pertaining to the Footbridge Road bridge over the Grand River and the Piper Street bridge over the Nith River. Resulting from the consideration of the Report and the recommendations from the study consultant on the priority to complete major rehabilitation work on both bridges, direction was provided by Council to accelerate the completion of rehabilitation work and for the 10 Year Capital Forecast to be amended to account for the two bridge projects;
- The Facilities Lifecycle Study was first completed by Walterfedy in 2017. The facilities lifecycle review by Walterfedy was also accompanied by accessibility and energy audits. The Walterfedy Study was updated in 2023 by Cion Corp. Staff have divided these future expenditures into both the annual Operating and the 10 Year Capital Forecast dependent upon the classification of the identified matter;
- The update in the late Fall of 2020 by Watson & Associates on the Township’s Development Charges Background Report. This Report identified growth related projects that are eligible to be included funded by residential / non-residential growth over the next ten-year period. The Background Study also identified the proposed timing for the delivery of the eligible growth-related capital projects;
- The preparation and submission of the Arena Strategy, Phase I and II, by Monteith Brown Planning Consultants in October 2020 and the follow up Staff

Report that was submitted to Council in December 2020. This Study was designed to inform a strategy to pursue the construction of a twin pad project at the North Dumfries Community Complex (NDCC). Work commenced in 2022 on the design phase of the Twin Pad Project. The design of the Twin Pad was presented to Council at the August 12, 2024 Meeting. Arising from the consideration of the August 2024 Report, direction was provided to include the Twin Pad Project in the Capital Forecast for 2025/26 with requirements associated with securing Grant(s) from Senior Levels of Government;

- Monteith Brown, Leisure Services Master Plan, dated June 2022. This Study assessed recreation and leisure needs for the Township for the next 10 year period. This Study identified indoor and outdoor recreation and leisure needs, programming opportunities, and, recommended service standards. This Study will assist with establishing a blueprint and informing both Operating and Capital Budgets;
- Dillon Consulting, Asset Management Plan – Core Assets, dated June 2022. This Study identified the funding requirements necessary over the next 10 year period to maintain the Township's linear infrastructure network (ie: roads, bridges, sidewalks, streetlights and stormwater management). This document assists with informing the Reserve Transfers necessary to fund projects associated with the linear infrastructure network.
- The Asset Management Plan (AMP), prepared by Staff, dated June 30th, 2025. The Plan was developed to manage the strategies by which the Township governs its capital assets. The Township's Plan is consistent with the requirements under Ontario Regulation 588/17 (O. Reg. 588/17) Asset Management Planning for Municipal Infrastructure including the requirements related to proposed level of service. The 2025 version of the Township's AMP includes the current level of service for all core and non-core assets and set outs the proposed level of services over a ten-year period. The AMP is a critical step in managing the appropriate level of service against the cost of maintaining and improving the Township's assets.

B. Content

Included as Attachment No. 1 to this Report are the worksheets associated with various components of the Ten Year Capital Forecast for the 2026 – 2035 time period.

The Ten-year Capital Forecast worksheets are laid out in the following format:

- **Summary Totals** – Summary Rollups of the details from Sections A – E

Special Council (Budget) Meeting
FIN Report No. 03-2026
February 2, 2026

The first document is a Summary Sheet which represents a “consolidation” of the categories by Asset for each Department by year, along with the proposed sources of funding required to balance the financial commitments associated with the various projects for the Ten-Year Period.

The *draft* Ten-Year Forecast (2026 to 2035) as presented has a total expenditure for the period of approximately \$ 150,549,522.

This number has increased by approximately \$ 343,000 with updated information to the Municipality since the August 2025 workshop. The increase in the overall *draft* Capital Forecast for the 10 Year period can be largely attributed to the refinement in the road related construction costs, and the addition of new park facilities projects.

Other changes within the *draft* Forecast include data clean-up; carry forward of some 2025 Projects into 2026; inclusion of some new projects; and, an increase in expenditures for some projects based upon new information.

The two largest areas of capital expenditures are focussed on Infrastructure (roads, bridges, stormwater management, sidewalks & streetlights) at \$57,391,019 (Section C) and Facilities (new buildings and renewal / lifecycle replacement of major building components) at \$56,333,854 (Section D).

The Twin Pad project at the North Dumfries Community Complex (NDCC), does have a Debt component equivalent to approximately \$5 Million. The Debt would be established in fiscal year 2026 with the first installments of the payment of principal and interest projected to be drawn in 2027. The projected Debt of \$5 million is proposed to amortized over a 20 year period with a estimated financing rate of 4.75%. The annual cost for the repayment of principal and interest on the Debt is estimated at \$392,752

Other Debt financed projects within the 2026-2035 forecast period include:

- i) Adaptive reuse of the Ayr Community Centre (ACC) for the purposes of indoor recreational activities in 2028 (debt payments commencing in 2029); and,
- ii) Phase II Public Works Depot expansion / rehabilitation in 2032 (debt payments commencing in 2033)

The Debt financing requirements in the *draft* 10 Year Forecast [2026 – 2035] to complete the above three referenced projects totals approximately \$ 15,837,000 in principal.

For the project associated with Phase II of the Public Works Depot, of the projected \$8,337,500 debenture, 74% of the amount (\$ 6,168,418) is related to the growth related

component and would be funded by Development Charges to address principal & interest payments. The residual 26% (\$2,169,082) of the project debenture would be funded through the tax levy.

10 Year Capital Forecast - Aggressive Program and Significant Fiscal Implications

The current *draft* 10 Year Capital Forecast (2026 to 2035) has established an aggressive campaign intermixing a blend of new assets in addition to on-going repair & replacement of existing infrastructure, rolling stock and buildings.

The on-going commitments by Council to grow Reserve Transfers to fund the 10 Year Capital Forecast for the 2026 – 2035 time period has established a program that will require further borrowing either internally or issuance of new debt in order to achieve the program.

The *draft* 10 Year Forecast leaves very little uncommitted funds to complete new and yet undefined projects without Council either further increasing fund transfers to Reserves above the model presently developed; altering the scope of the project deliverables; dropping projects or pushing projects outside of the 10 year horizon; increasing commitments to Debt financing; and/or being successful in securing new Grant opportunities from Senior Levels of Government.

In addition, in the later years of the *draft* 10 Year Forecast, the majority of the funds raised to be transferred to Reserves for future projects are actually being allocated to project in the same year that the funds are raised or in the next fiscal year. In the mid-part of the forecast, some reserves are almost completely drawn down to zero. This results in very little growth to many of the Township's Capital Reserves, and by extension, this translates into very little flexibility to accommodate capital cost overruns (estimates vs actual bid price) and/or adding new capital projects.

Council also needs to assess that the Development Charges component of various Public Works projects, including road reconstruction projects assigned to accommodate growth. The present delivery timeline for road related projects and the projected off-setting annual Development Charges revenue will establish a shortfall in the pooled reserves attributed to Development Charges within 5 years and continues for the balance of the 10 Year Forecast. As illustrated in Schedule F Reserve Continuity, the Development Charges pooled account is in a negative cash flow position for the majority of the time period extending from 2030 to 2035.

The Township is scheduled to update the Development Charges Background Report and implementing Bylaw in 2026. This updated Study will account for Development Charges and eligible recoveries of capital costs attributed to growth and it may resolve the cash flow predicament as highlighted in Schedule F. Alternatively, the updated

Study may continue to identify a negative cash flow position and carry an allowance to fund the principal and interest in the interim debt position so that it does not impact the property tax levy. The undertaking of the 2026 Development Charges Bylaw update and its implications on the 10 Year Forecast and capital financing plan represents a critical element to monitor when establishing Budgets in 2027 and beyond.

Council in August 2025 resolved to fund transfers to Reserves in the amount of 3% to fund various capital projects in the 10 Year Capital Forecast commencing with the 2026 Budget. The 3% Capital Reserve fund transfers for 2025 was divided as follows:

- i) 1.25% directed to Infrastructure Reserve;
- ii) 0.75% directed to Facilities Reserve; and,
- iii) 1% directed to various other Reserve Accounts

The 2026 – 2035 Capital Budget and the Reserve Continuity analysis has assumed that Council (and future terms of Council) will continue with the 3% Capital Reserve contribution for the foreseeable future.

The Capital Forecast includes both “non-growth” (typically projects that represent rehabilitation or lifecycle replacement of existing assets) and “growth” (projects eligible for Development Charges funding).

- **Section A - Rolling Stock (Fleet)** - Replacement / purchase of rolling stock & equipment;
- **Section B - Studies, Equipment, Software** – Planning or Corporate studies, software or small hand tools / equipment
- **Section C – Infrastructure (Public Works)** – Roads, Bridges, Sidewalks and other items identified in the Township’s linear infrastructure. This includes current infrastructure and new construction.
- **Section D – Facilities** – Existing major buildings and their components*; existing Park Facilities; New Buildings or additions to existing structures
- **Section E – Parks, Trails** – Existing or identified new Parks and Trails

Sections A – E are the detail behind the Summary sheet and are broken down by asset type. Assets are prioritized and funded differently which is why they are broken down in this manner. Within the detailed sheets the assets are grouped together by Departments, which is consistent with the annual Township Budget.

Council should note that there are several Capital projects that are under discussion that are **presently not accounted** for in the *draft* 2026 – 2035 Capital Forecast. These items represent work presently being assessed and are under some level of study or analysis which upon their completion could potentially be included future draft submissions. The potential Capital projects include:

- i) Nithvale Bridge rehabilitation for off-road trail connection;
- ii) Ayr Ice House rehabilitation; and,
- iii) Ayr Ice House precinct park adjacent the Nith River

The detailed spreadsheets identify an extensive list of forecast projects including the estimated expense and the timeline for the delivery of each project. Where possible a “base cost” in 2025 dollars has been identified for each project, and, has been indexed the equivalent of 2% per annum to reflect an estimated inflationary factor. For the road resurfacing / road reconstruction projects, and new facility construction, the factor is 5% annually to reflect inflation and the intent to expand on an annual basis the number of kilometres of roads to be repaired and the rising cost of construction of buildings.

- **Section F – Reserve Continuity & Proposed Debt Summary**

Selective Reserves and Grants which are ongoing in nature and which are specifically identified to fund the Capital Plan are shown with a continuity schedule to assist understanding potential gaps in funding.

Included in this section is a summary of all Debt related projects. Debt has been identified for some projects to provide interim financing for major projects that require multi-million dollars raised in a short period of time. It is not practical for the Township to raise the funds in tax increases due to the short period. Funding from Grants and Reserves are utilized when available, with the residual being financed by debt. The calculation of tax rate increase is based on 2026 tax increases, so with assessment growth, this increase could be reduced. Also included in the Debt listing is the deficit that results in the Development Charges Account as it must be funded and cannot be left in a negative balance.

- **Section G – Reserves Totals**

A summary of Reserve balances from 2021 – 2025 are listed to give context as to what Reserve balances have been and what the unaudited starting point is for fiscal year 2025. The 2025 Reserve Total is an estimated value and will be confirmed as part of the annual audit process.

C. Next Steps – Budget 2026

As part of the 2026 Budget exercise, the Ten-Year Capital Forecast (2026 to 2035) is not proposed to be approved and implemented. Staff will be seeking the adoption of the framework of the Ten-Year Forecast for the purposes of continued study, analysis and guiding principles, for both the expenditures and revenues. As such, Council is adopting in principle the Capital Forecast

The Ten-Year Capital Forecast will be reviewed again in August 2026, in preparation of the 2027 Budget and to ensure that representative projects have been properly captured and that the projects are prioritized in a fashion consistent with expectations. This will form part of the annual update and review.

D. February 2, 2026 Council Review of Long Term Capital Plan – Tasks

Staff would request that Council review the *draft* Ten-Year Capital Forecast and be prepared as part of the February 2, 2026 Special Council (Budget) Meeting to identify / confirm projects for inclusion in the 2026-2035 Capital Forecast going forward.

The *draft* Ten-Year Capital Forecast with the estimated \$150,479,522 in aggregate expenditures is not fully funded. It is important for Council to identify the key projects, principally focused within Public Works Division (Linear Infrastructure) and Leisure & Community Services Department (Facilities and Parks/Trails) that represent the priorities of Council.

Arising from this review and discussion during Budget deliberations, Council may:

- drop projects; and/or,
- modify or scope projects; and/or,
- delay or extend the timeline for the completion of projects; and/or
- add new projects; and/or
- identify projects that would only be completed if funding partnerships could be attained with Senior Levels of Government and/or other parties.

E. Debt Limits

As outlined at the end of Schedule F is the 2025 Annual Debt repayment Limits of the Municipality. The 2025 limit establishes an annual repayment schedule (principal and

interest) on Debt that cannot exceed \$2,722,860. In 2033, the Township is projecting annual repayments of \$759,407.

The Township has not had to consider this Debt limit under the current conditions with the Debt on the North Dumfries Community Complex having expired at year end 2024. The historic debenture annual payment (principal and interest totalled approximately \$254,490). As noted in earlier Sections of this Report, the Township will require new Debentures to pay for several key projects as contained in the draft 2026-2035 Capital Forecast.

In the *draft* 10 Year Capital Forecast (2026 – 2035) the expansion / renovation to the Public Works Depot – Phase II, the ACC Adaptive Reuse and the NDCC Twin Pad Project all have Debt financing attached to the funding strategy. The estimated amount of Debt to fund these three projects is approximately \$ 15,837,000 (principal). The Debt funding model for each project anticipates a repayment schedule amortized over a 20 year period at an annual interest rate fixed at 4.75%

When considering the Long Term Capital forecast and reviewing potential funding, it is important to review the Municipality's limits on Debt, and what is the associated burden on the tax levy on an annual basis. The majority of Debt is funded through taxation.

4. Financial Implications

There are no other Financial implications with this Report, however the 2026 – 2035 Capital Forecast will be utilized as the basis for the post 2026 fiscal strategy for the Township of North Dumfries.

Final approval of the 2026 Budget (Operating & 2026 Capital Projects) is anticipated to be undertaken through the consideration of a separate Staff Report [FIN Report 04-2026] as part of the February 2nd, 2026 Special Council (Budget) Meeting.

5. ATTACHMENTS

1. 2026 – 2035 Capital Forecast – Sections A to G (dated January 2026)

**Special Council (Budget) Meeting
February 2nd, 2026**

2026 Budget (Capital and Operating)

The Chief Administrative Officer and the Treasurer / Director of Corporate Services recommends:

- 1) THAT FIN Report No. 04-2026 be received;**
- 2) AND THAT direction from Council be provided with respect to Discussion Paper #2 'Heritage Resources' and any potential revisions or updates to the 2026 Capital Budget arising from this review and discussion;**
- 3) AND THAT draft 2026 Operating Budget be amended with the following revision for the July 1st Canada Day Event:**
 - i) Fireworks – Materials & Supplies \$22,000k reduced to \$18,000**
 - ii) Activities – Materials & Supplies \$2,700 increased to \$6,700**
- 4) AND THAT direction from Council be received with respect to the utilization of potential bridge funding for the 2026 Capital Budget related to the completion of the Net Zero Arena Twin Pad Project at the NDCC and the Major Exterior Rehabilitation of the Ayr Community Centre;**
- 5) AND THAT the 2026 Budget (Capital and Operating) be approved;**
- 6) AND THAT By-law No. 3617-26, being a By-law to approve the Township of North Dumfries 2026 Budget with a tax levy of \$9,002,499 plus \$ 160,117 for the Ayr Special Area levy, be presented for 1st, 2nd, and 3rd reading at the February 2nd, 2026 Meeting;**
- 7) And that the 2026 Municipal Tax Rates be approved following the Region of Waterloo Council adoption of the 2026 Tax Ratio Policy.**

1. Purpose

The purpose of this report is to two-fold:

- i) Present for discussion and review Discussion Paper #2 'Heritage Resources'. This matter was discussed at the January 14th, 2026 Budget Meeting and Staff were requested to prepare options with respect to the delivery of two (2)**

heritage related projects and the possible implications on the 2026 Capital Budget; and,

- ii) To present the *final* 2026 Budget for Council's consideration and approval.

2. Background

Council was presented with the *draft* 2026 Budget on December 8, 2025.

The *draft* 2026 Budget was reviewed and discussed at the January 12 and January 14, 2026 Special Council (Budget) meetings.

Resolutions of Council regarding changes to the *draft* Budget have been incorporated into the updated Operating and Capital budget estimates. Approved changes as per adopted Council Resolution to the *draft* Budget that have occurred during the two (2) previous Special Council budget meetings presentation are summarized in Section 3.2 of this Report.

At the February 2nd, 2026 Special Council (Budget) Meeting, Council will be reviewing a separate Staff Report [FIN Report 03-2026] that deals with the 10 Year Capital Forecast (2026 – 2035) and the Reserve Continuity Analysis.

3. Options and Analysis

3.1 Discussion Paper #2 Consideration of Financial Matters – Heritage Resource Studies / Analysis

At the January 14th, 2026 Special Council (Budget) Meeting, Staff were requested to identify funding opportunities / strategies for consideration to deliver two (2) potential heritage resource focussed projects. The two projects are:

- i) Spragues Road District Cultural Heritage Landscape Study; and,
- ii) Part IV Property Designations – Ontario Heritage Act.

Discussion Paper #2 which is included as Attachment No. 2 to this Report has been prepared for Council's review and consideration.

At present neither of the two above referenced Studies / Analysis has been funded in the draft 2026 Capital Budget and as such, direction from Council will be required, to fund one or both assignments as part of the Budget deliberations.

3.2 Update to the *Draft* 2026 Budget – Revisions Adopted By Council

As it pertains to the 2026 *draft* Operating & Capital Budgets, through adopted Resolutions of Council, changes were made to the Budget document at the January 14th, 2026 Budget meeting.

A summary of items approved by Council related to the 2026 Operating Budget are as follows:

- i) \$47,485 Grant applied to the 2026 Operating Budget and a matching \$47,485 applied to the 2027 Operating Budget [Total Grant Award of \$94,970] from the Growing Canada's Community Canopies Fund (GCCC) – Tree Planting delivered through the Green Municipal Fund program as administered by the Federation of Canadian Municipalities with an offsetting expenditure in both 2026 and 2027 in the amount of \$47,485;
- ii) \$11,485 be drawn from the Green Strategy Reserve Account and added to the Parks – Tree Planting Account [Operating Budget] to align with the 50/50 matching contribution between the Township and the Growing Canada's Community Canopies Fund (GCCC) – Tree Planting Grant Award as a top-up to what is already funded in the Public Works and Recreation Budget account lines for tree planting;
- iii) Add to the 2026 Operating Budget property acquisition / disposition expenditure allowance of \$180,000 to be funded from the Reserve – Lands Sales Account;

The following adjustments have been approved for inclusion in the 2026 Capital Budget with no impact to the tax levy:

- i) \$443,412 Grant received through Phase 1 of the Road Safety Initiatives Fund (RSIF) be added to the 2026 Capital Budget for traffic calming initiatives;
- ii) Adjust the 2026 Capital Budget for the Fire Department Grant from the Province of Ontario for Firefighter Protective Equipment from \$16,400 to \$17,800;
- iii) Add \$ 45,640 to the 2026 Capital Budget to facilitate the replacement of the tennis / pickleball court lights and light standards at Victoria Park with the expenditure to be funded from the Energy Plus Reserve Account;

- iv) Add to the 2026 Capital Budget \$25,000 to facilitate the completion of the 2025 Capital Project installation of the power assist entry gate at the Public Works Depot, to be funded from Gravel Reserves

3.3 Flexibility to Secure Bridge Funding – 2026 Capital Budget Net Zero Arena Project @ NDCC and Major Exterior Rehabilitation to ACC

Staff at the January 14th, 2026 Special Council (Budget) Meeting in the presentation associated with the consideration of the draft 2026 Capital Budget flagged a matter for introductory purposes. The item revolves around the Boundary Adjustment Agreement between the City of Cambridge and the Township. The Province has not yet approved the matter and issued an Order under the *Municipal Act* to facilitate the land transfer between the two Municipalities.

As per the Boundary Agreement adopted by the respective Councils, the Township is to receive a payment in the amount of \$3.2 million within 30 days following the issuance of the Order from the Province to approve the land transfer.

At this time, it is unclear as to the specific timing of the Provincial approval to the Boundary Adjustment Agreement due to provisions in the *Municipal Act* related to the land transfers within the year of a Municipal election. Discussions continue with Provincial Officials on a pathway to move the assignment ahead and to have the matter ratified.

Specific to the draft 2026 Capital Budget, funding from the Boundary Adjustment Agreement is to be utilized to assist with the financing of two projects as follows:

- \$2,212,530 to fund the ACC Exterior Rehabilitation Project; and,
- \$488,800 to fund the Net Zero Arena Twin Pad Project at the NDCC

Staff presented three (3) Options for Council's consideration designed to facilitate the continued advancement of the two projects and the broader implications associated on the draft 2026 Capital Budget.

Staff are recommending to Council Option 3 as presented to Council at the January 14th Special Council (Budget) Meeting. Option 3 is summarized as follows:

- Expenses and the funding requirements for the Net Zero Arena Project will occur over two fiscal years. It is estimated by Staff that that 65% of project funds will be drawn in 2026 (\$10.4 million) and balance drawn in 2027 (\$5.6 million);
- It is proposed that the Township accelerate the draw in the amount of \$2.5 million in Debt in the Fall 2026 for Net Zero Arena Project. The balance of the proposed \$5 million debenture (\$2.5 million) would be drawn in 2027 as originally planned;

- Debt repayment on the full debenture (\$5 million) will commence in 2027 as originally planned;
- Reallocate as necessary funding in 2026 to fund the ACC Major Exterior Rehabilitation Project from a combination of Facility Reserves and the Net Zero Arena Project to finance the project;
- In late 2026 or early 2027 (timing dependent upon receipt of the \$3.2 million arising from the Boundary Agreement), the temporary transfer from the Facility Reserves Account would be replenished and the balance temporarily utilized from the Net Zero Arena Project would be repaid from the proceeds received from the City of Cambridge.

Staff is not at this time seeking an amendment to the draft 2026 Capital Budget to implement Option 3 as summarized in the preceding paragraph.

With discussions continuing with the Province on the pathway and timing for the approval of the Boundary Adjustment Agreement there remains some fluidity. Staff anticipate that direction from the Province will be received within the next month to six weeks.

It would be Staff's intent to return in late March / early April 2026 to Council, if necessary, to seek an amendment to the 2026 Capital Budget to implement the interim funding strategy as summarized in Option 3.

3.4 2026 Tax Levy & Tax Rates - Proposed

A) Tax Levy and Tax Rates

The tax rate is calculated as follows:

Total Estimated Expenditures Less Total Estimated Revenues = Net Levy to be raised from Taxes. This is divided by the Weighted Assessment for the Township to determine the Tax Rate increase.

Attachment No. 1 to this Report illustrates the Tax Levy and Tax Rate calculations for both the Rural and Ayr Special Rate (Urban) area. The calculated figures as illustrated on Attachment No. 1 account for the adopted Resolutions as summarized in the preceding paragraphs of this Report.

The 2026 Budget identifies a net expenditure of \$9,002,499 to be raised through the property tax levy and \$160,117 to be raised through the Ayr Special Area rate levy. This translates into a 5.5% general tax rate increase over 2025. The net effect is that 2026 Budget proposes an increase in property taxes, based on the average Residential Assessment of \$83.50 for Urban Ayr and \$75.43 for Rural residents.

The average residential assessment of \$455,000 is used as the basis for comparison. While the market value on properties has substantially changed since the average was calculated in era 2016, the actual assessments used for taxation purposes has not changed when calculating property taxation. Property taxes continue to be levied against the 2016 assessment values.

The proposed 5.5% tax rate increase as drafted aligns with the direction that Staff received at the August 2025 Budget workshop. The tax rate increase can be broken down as follows:

- i) 3.0% directed to Capital Reserve transfers comprised as follows:
 - 1.25% transferred to Infrastructure Reserves;
 - 0.75% transferred to Facilities Reserves; and,
 - 1.00% transferred to Various Capital Reserve Accounts
- ii) 2.5 % directed to fund increases in operating costs and program enhancements

The Township experienced a 1 % growth on the tax assessment roll from 2025 to 2026.

3.5 Next Steps

Arising from the review and consideration of this Report, Staff seeks direction from Council on several items, namely:

- i) A decision and direction from Council will be required with respect to Discussion Paper #2 (included as Attachment No. 2 to this Report). Staff are recommending in Discussion Paper #2 that the draft 2026 Capital Budget be amended to include the two identified heritage resource projects along with their funding sources;
- ii) Staff is seeking flexibility to provide bridge funding, if the situation arises, affecting both the Net Zero Twin Pad Project at the NDCC, and the Major Exterior Rehabilitation of the Ayr Community Centre. The bridge funding situation may arise if there is a delay in the receipt of the \$3.2 million payment from the City of Cambridge to either December 2026 or January 2027. Funding in part for the two 2026 Capital Projects draws from the Boundary Adjustment transfer payment; and,
- iii) Staff is recommending that Council approve the 2026 Operating and Capital Budget. The recommended 2026 Budget represents the base document presented in December 2025 and as amended through various Resolutions as approved by Council at the Budget Meetings of January 14th, 2026 (summarized

Special Council (Budget) Meeting
FIN Report No. 04-2026
February 2, 2026

in Section 3.2 of this Report) and any further Resolutions as adopted by Council at the February 2nd, 2026 Special Council (Budget) Meeting.

If Council adopts the Staff Recommendation this would translate into a required 2026 tax levy of \$9,002,499 and the 2026 Ayr Special Area Levy of \$160,117.

Attachment No. 1 to this Report illustrates the overall tax rate increase and the additional dollars required from the average assessed residential dwelling to fund the 2026 Budget.

Council has three Options available arising from the consideration of this Report, namely:

1. Adopt the Staff Recommendation and approve the 2026 Budget as presented with the amendments; or,
2. Provide direction to Staff on additional changes to the *draft* 2026 Budget; or,
3. Provide direction to Staff on a targeted decrease or increase in spending and for Staff to report back to Council on potential options and implications arising

Staff are recommending Option 1 for Council's consideration.

4. Financial Implications

Staff are recommending that the 2025 Budget, as presented, be approved by Council. This would result in the required 2026 tax levy of \$ 9,002,499 and the 2026 Ayr Special Area levy of \$160,117.

Attachment No. 1 to this Report summarizes the implications for both the General Tax Levy and the Ayr Special Area Levy if the Staff Recommendation is adopted.

As illustrated in Attachment No. 1 to this Report, the Staff Recommendation would translate into a 5.5 % general tax rate increase over 2025. The net effect is that 2026 Budget proposes an increase in property taxes, based on the average Residential Assessment of \$83.50 for Urban Ayr and \$75.43 for Rural residents. The average Residential Assessment is \$455,000

Re: **2026 Draft Capital Budget**
2026 Budget – Discussion Paper #2
Potential Heritage Resource Projects

Date: February 2nd, 2026

Overview

At the January 14th, 2026 Special Council (Budget) Meeting, Staff were requested to identify funding opportunities / strategies for consideration to deliver two (2) potential heritage resource focussed projects. The two projects are:

- i) Spragues Road District Cultural Heritage Landscape Study; and,
- ii) Part IV Property Designations – Ontario Heritage Act.

This Discussion Paper has been prepared for Council's consideration in response to the direction that Staff received at the January 14th Special Council (Budget) Meeting.

At present neither of the two above referenced Studies / Analysis has been funded in the draft 2026 Capital Budget and as such, direction from Council will be required, to fund one or both assignments as part of the Budget deliberations.

Background

At present the *draft* 2026 Capital Budget does not contain the two identified Heritage Resource projects and the associated funding aspects.

Spragues Road District Cultural Heritage Landscape Study (CHL)

Township Council on September 8th, 2025 received a Staff Report on the draft Terms of Reference on the scope and context for the Study. Council supported the draft Terms

2026 Budget - Discussion Paper #2
Heritage Resources Projects
February 2nd, 2026

of Reference with the intent that the document would be posted to the marketplace to retain a Consultant and to receive competitive bids.

At the time of the consideration of the September 8th Report to Council, Staff estimated the cost to complete the Study at \$80,000

Staff have been delayed in the posting of the proposed Request for Proposal (RFP) to the marketplace to secure bids.

Part IV Heritage Designations – Ontario Heritage Act

In accordance with Provincial legislation Municipalities are to address properties listed in the equivalent of the Township's Built Heritage Inventory that are deemed suitable for consideration for a Part IV designation under the Ontario Heritage Act by the end of December 31st, 2026. Any properties that are not designated under Part IV of the Act on January 1st, 2027 are to be removed from the Built Heritage Inventory list.

The Heritage Advisory Committee and Staff have presented update Reports to Council on the status of work related to the pursuit of Part IV Heritage Designations for various properties across North Dumfries through the Summer and Fall of 2025.

In November 2025 the Advisory Committee hosted a public forum with invitations sent to approximately 95 property owners with approximately 45 persons in attendance. Arising from the forum, there are approximately 12 to 16 property owners that have identified the potential interest in pursuing a Part IV designation.

The intent of the Committee in the Winter of 2026 is to finalize a listing of potential properties for a Part IV consideration and, to then retain a Consultant to pursue the detailed analysis of the potential heritage resources and to "score" the resource against the criteria of Ontario Regulation 09/96. The Consultant, on properties that achieve a minimum of two (2) of the criteria would then undertake the preparation of a summary of the heritage assets / elements to be protected that would in time be included as a Schedule to the implementing Bylaw to designate a property.

For the purposes of this Discussion Paper, Staff have assumed that potentially 14 properties may be advanced for a Part IV consideration. The cost to retain the Consultant to undertake the work program is estimated to be between \$4,500 to \$6,000 per property. At a mid-point cost of \$5,250 (plus HST) the projected cost to undertaken the analysis would be \$74,795

In addition to the foregoing cost estimate for the Consultant, there are advertising costs and the purchase of plaques that would be affixed to the designated building. The advertising cost is estimated to be \$250 (plus HST) per property and, each plaque at

**2026 Budget - Discussion Paper #2
Heritage Resources Projects
February 2nd, 2026**

\$450 (plus HST). For 14 properties, the estimated cost to complete these tasks is \$9,975

The total estimated cost to complete the 14 properties would be an aggregate value of \$84,770

Options – Heritage Focused Funding Sources

At present there is a total of \$100,000 in a Heritage Reserve Account that Council established in 2025.

There is \$17,517 in the LACAC Reserve Account.

Option 1 – Pursue Both Projects Simultaneously

Township Council could add to the 2026 Capital Budget both the Spragues Road District Cultural Heritage Landscape Study and the Part IV Heritage Designation. Both projects would be undertaken in the 2026 time period.

Funding for the projects are available as an Option 1a and 1b as summarized below:

Option 1a – Merge Spragues Road District CHL into the Township Official Plan Study, and, Pursue the Part IV Heritage Designation project

The Township has allocated \$405,000 to complete a complete update and rewrite of the Official Plan, inclusive of a Background Report. This scenario would add to the scope of the work the key elements of the Spragues Road District CHL to the Official Plan Study assignment. The variance in terms of Consultant time and effort (and thereby cost) would be a reduction in the focussed public engagement meetings in lieu of a more traditional public engagement process. The estimated cost of adding the Spragues Road District CHL with the modified public engagement element would add an estimated \$55,000 to the original forecast cost of the Official Plan exercise.

The added cost associated with incorporating the Spragues Road District CHL into the Official Plan program would be funded as follows:

- Transfer \$32,745 from the Heritage Reserve Account; and,
- Temporarily internally fund \$22,255 from the Working Reserve Account and transfer this amount to the Official Plan study. The intent is that the “temporary” internal transfer would be returned to the Working Reserve Account over the 2027 and 2028 time period.

2026 Budget - Discussion Paper #2
Heritage Resources Projects
February 2nd, 2026

The cost to complete the Part IV Heritage Designated properties would be funded as follows:

- \$17,515 transferred from the LACAC Reserve Account; and,
- \$67,255 transferred from the Heritage Reserve Account

Option 1b Pursue a Stand-alone Spragues Road CHL Study and, Pursue the Part IV Heritage Designation project

To complete the estimated cost of undertaking the Spragues Road CHL Study as a stand-alone project is \$80,000

The proposed funding strategy would be as follows:

- Transfer \$32,745 from the Heritage Reserve Account; and,
- Temporarily internally fund \$47,255 from the Working Reserve Account and transfer this amount to the Spragues Road CHL Study. The intent is that the “temporary” internal transfer would be returned to the Working Reserve Account over the 2027 to 2029 time period.

The cost to complete the Part IV Heritage Designated properties would be funded as follows:

- \$17,515 transferred from the LACAC Reserve Account; and,
- \$67,255 transferred from the Heritage Reserve Account

Option 2 - Complete Only One Assignment in 2026

Under this Option, Council would have to decide which of the two Heritage Resource projects would be undertaken in 2026. Funding for the completion of the Study would be drawn exclusively from the Heritage Reserve Account to offset the expense to deliver the identified project.

2026 Budget - Discussion Paper #2
Heritage Resources Projects
February 2nd, 2026

Staff Recommendation

It is Staff's Recommendation to Council that Option 1a as summarized in the preceding section be pursued. Option 1a would allow both Heritage Projects to proceed forward in 2026, with the Spragues Road District CHL being rolled into an expanded scope of work in the Official Plan Study

THAT the 2026 Capital Budget be amended to add the following two Heritage Resource Projects with the following funding sources.

Spragues Road District CHL to be Included as an Expanded Scope of Work for the Official Plan Study.

Official Plan Project Cost (revised) \$460,000

Funding Sources for the Additional \$55,000 Expenditure

- ***Transfer \$32,745 from the Heritage Reserve Account; and,***
- ***Temporarily internally fund \$22,255 from the Working Reserve Account and transfer this amount to the Official Plan study. The intent is that the "temporary" internal transfer would be returned to the Working Reserve Account over the 2027 and 2028 time period***

AND THAT the work program for the Part IV Designated Heritage Properties be established as follows:

Part IV Heritage Properties Cost \$84,770

Funding Sources

- ***\$17,515 transferred from the LACAC Reserve Account; and,***
- ***\$67,255 transferred from the Heritage Reserve Account***

**The Corporation of the Township of North Dumfries
By-law Number No. 3617-26**

**Being a By-law to Adopt the 2026 Budget for the Township of North
Dumfries**

Whereas Section 290 (1) of The Municipal Act 2001, S.O. 2001, c. 25, as amended, provides that a local municipality shall in each year prepare and adopt a budget including estimates of all sums required during the year for the purposes of the municipality including the amount sufficient to pay all debts of the municipality falling due within the year;

Now Therefore the Council of the Township of North Dumfries hereby enacts as follows:

- i) That the estimates of all sums required during the year 2026 for the purposes of the municipality requiring a levy of \$9,002,499 be hereby adopted with summarized estimates in Schedule “A” to this By-law.
- ii) That the estimates of all sums required during the year 2025 for the purposes of the municipality for the Ayr Special Area Rate requiring a levy of \$160,117 be hereby adopted with summarized estimates in Schedule “A” to this By-law.

Read a First, Second and Third Time and Finally Passed this 2nd day of February 2026.

Susan Foxton, Mayor

Ashley Good, Township Clerk

**The Corporation of the Township of North Dumfries
By-law Number No. 3618-26**

Being a By-law to Confirm the Proceedings of Council of the Corporation of the Township of North Dumfries at this Meeting held on February 2, 2026.

Whereas Section 5 (3) of the Municipal Act, 2001 S.O. 2001, c.25, as amended provides that a municipal power, including a municipality's capacity, rights, powers and privileges under section 9, shall be exercised by by-law unless the municipality is specifically authorized to do otherwise;

And Whereas Section 9 of the said Municipal Act, 2001 provides that a municipality has the capacity, rights, powers and privileges of a natural person for the purpose of exercising its authority under this or any other Act;

And Whereas Section 11 (1) of the said Municipal Act provides that A lower-tier municipality and an upper-tier municipality may provide any service or thing that the municipality considers necessary or desirable for the public, subject to the rules set out in subsection (4);

And Whereas in many cases action which is taken or authorized to be taken by Council does not lend itself to the passage of an individual by-law;

And Whereas it is deemed desirable and expedient that the actions of the Council as herein set forth be adopted, ratified and confirmed by by-law;

Now Therefore the Council of the Corporation of the Township of North Dumfries Enacts as Follows:

1. **THAT** the action of the Council at its Council Meeting held on February 2, 2026 in respect to each report, motion, resolution or other action passed and taken by the Council at its meeting, is hereby adopted, ratified, and confirmed, as if each resolution or other action was adopted, ratified, and confirmed by separate by-law.
2. **THAT** the Mayor and the proper officers of the Township are hereby authorized and directed to do all things necessary to give effect to the said action, or to obtain approvals where required, and, except where otherwise provided, the Mayor and the Clerk are hereby directed to execute all documents necessary in that behalf and to affix the corporate seal of the Township to all such documents.
